Subject: FW: Lecture at the City Council Meeting

Shawn....I know Mrs. [REDACTED] can come on strong. In this case I happen to agree with her. By the way some members of the council, in how they behaved last night did give the impression that it was a done deal. We have to watch that. We all got caught up in it. We have to remember we answer to the public or its just a dog and pony show.

Subject: Lecture at the City Council Meeting

August 12, 2009

Dear Mayor Edwards,

I attended the meeting last night of the Temecula City Council, with particular interest in the Affordable Low Income Housing issue.

I also took the opportunity to speak for a few minutes with thoughts and questions.

My email to you today pertains to the 'lecture' you gave at the end of the meeting. This lecture, given to those who do not agree with the project, was a blatant abuse of your position as mayor. It was offensive and condescending and way out of line.

What a shameful thing for you to have done.

Carol [REDACTED]
